ANOTHER OPERATION

The Abscess on the President's Leg
Cut With the Knife.

BONE WAS AFFECTED

Physicians State That the Speedy Recovery of the President Is Expected
and That No Danger Is Now
Anticipated by Them.

Washington, Sept. 29.—Another operation was performed Sunday on the abscess on the left leg of President Roosevelt. In the former operation a simple needle was used to relieve the trouble, but Sunday the surgeons with a knife made an incision into the small cavity, exposing the bone which was found to be slightly affected. The president's case has been progressing satisfactorily, but it is believed by the physicians that the further operation made Sunday will hasten his complete recovery. While none of the doctors are willing to be quoted, they give the most positive assurances that there is not the least cause for alarm, and say, on the contrary, there is every indication of a speedy recovery, that the area of the bone affected is very slight and will not result in an impairment of the president's limb and that there is no evidence whatever of any matter that would produce blood poisoning. They confidently expect that the president will be on his feet within a reasonable time and with his robust constitution to assist recovery will soon be himself again.

Dr. Newton Shaffer of New York, who long has been acquainted with the Roosevelt family and has attended the president's children at various times and who is also a well known bone specialist, joined the president's physicians in their morning consultation at 10 o'clock.

The president stood the operation very well and subsequently expressed his satisfaction at the successful result.

Dr. Rixey, the surgeon general of the navy, performed the operation assisted by Dr. Lung, the president's regular physician. Dr. O'Reilly who also was present with the other physicians is the surgeon general of the army and heretofore has been consulted regarding the care. Dr. Edward R. Stitt, another of those present, is in charge of the naval museum of hygiene and medical school.

Secretary Cortelyou at 3:30 o'clock Sunday afternoon issued the following statement:

"Dr. Newton M. Shaffer of New York joined the president's physicians in consultation this morning at 10 o'clock. The increase in local symptoms and a rise in temperature rendered it necessary to make an incision into the small cavity, exposing the bone, which was found to be slightly affected. Thorough drainage is now established and the physicians feel confident that recovery will be uninterrupted."

"The operation was performed by Surgeon General Rixey, assisted by Dr. Lung and in consultation with Surgeon General O'Reilly and Drs. Shaffer, Vrie and Stitt."

STRIKE SITUATION.

Statement of Mitchell Regarding the
Strikers as a "Ten Strike."

Wilkesbarre, Pa., Sept. 29.—Some of the local coal operators, after being shown a statement issued by President Mitchell of the United Mine Workers Sunday, in which he gives facts and figures refuting the statements of President Baer, said it would probably be the last he will give to the public before the ending of the strike.

They claim his appeal is made up of generalities, and that he endeavors to win public sympathy by making a plea for child labor. One operator said the condition of child labor in the coal regions is much better than it is in the manufacturing districts of the country; that the wages paid are better and the working hours shorter.

At strike headquarters Mr. Mitchell's last deliverance is termed a "ten strike," and that the facts and figures he presents are irrefutable.

The military authorities, Sheriff Jacobs and some of the superintendents of the coal companies in this vicinity held a meeting in the office of one of the coal companies and talked over a plan by which the troops can be moved promptly to scenes of disturbance.

It is not the purpose of the militia to do police duty, but if any of the companies can get men to go to work the soldiers will give them protection. It is reported again that attempts will be made today to resume work at several collieries in this region which have been idle since the strike began, but the report cannot be verified.

At strike headquarters it was claimed that there will be no change in the situation the coming week, which is the twenty-first of the strike; that the strikers are as firm as ever, and that there will be no desertions from the ranks to make it possible for the coal companies to start up any new collieries.

The Ninth regiment went into camp at Westside park Sunday afternoon in the midst of a drenching rain storm.

The Sheridan troop, ordered out by the governor Sunday, will join the Thirteenth regiment at Olyphant, Lackawanna county.

Profit in Sweet Potatoes.

Terrell, Tex., Sept. 29.—J. W. Spradlin of Hiram, in the eastern portion of this county, has grown and already marketed 240 bushels of yellow yam potatoes from three and three-quarter acres of land this year. He has dug only about half of his crop, which he estimates will yield 200 bushels per acre.

WRECK ON INTERURBAN.

The Motorman Seriously Injured and
Several Passengers Hurt.

Fort Worth, Sept. 29.—In a collision near Handley on the Interurban Electric railway between Fort Worth and Dallas, eight persons were injured, the motorman, Dan Leonard, seriously. The cars came together on the main track at high speed. It is likely some of the injured will die.

As far as can be learned the wreck was caused by either a misunderstanding or disobedience of orders by the motorman of the eastbound 8 o'clock car from Fort Worth. The 7 o'clock car from Dallas was instructed to meet the Fort Worth car at station six, one mile west of Handley, and leave after a few minutes if no other car was in sight. It is said that orders to the same effect were given the motorman of the eastbound car before leaving Fort Worth, and were changed at a station a few miles from here to the effect that he should wait at station four, seven miles this side of station six.

The motorman at station six started to pull out when the other car crashed into him.

The injured are:

Geo. D. Hodge, Handley.
Mr. and Mrs. Adams, Fort Worth.
E. P. Green, Oak Cliff.
Mr. Johnson, Oak Cliff.
Dan Leonard, motorman, Oak Cliff.
Miss Allie Graham, Handley.
Miss Verdie Kell, Handley.
Mrs. Adams' injuries are thought to be serious; the others are not badly hurt.

The injured, except Leonard and the Handley parties, were brought here.

The cars wrecked were taken to the Handley shops.

The local officers refuse to fix the blame and state that no one was seriously hurt, except Leonard, who was shocked and rendered unconscious.

DISCRIMINATING RATE.

The Low Freight Rate on Cotton Favors
Louisiana Points Against Texas.

Austin, Sept. 29.—The railroad commission is considering the proposition to put an emergency rate on cotton between Kilgore and Longview, and from Kilgore and Longview to Houston, Galveston and other points in Texas, to offset certain reductions made by certain lines in order to haul to Shreveport and New Orleans, thereby discriminating against Galveston and other points. A representative from Henderson entered a protest against the proposed emergency rate. Letters were read from the International and Great Northern to the effect that one road handling cotton over an indirect route to Shreveport and Longview handled 10,000 bales of cotton, all shipped to Shreveport. A number of witnesses were placed on the stand and all showed that rates had been cut and Shreveport was getting the best of the deal to the discrimination of Houston, Galveston and other points. The rate between Kilgore and Longview is now 15 cents, and the commission's proposition is to put a 40-cent rate between the two points to stop shipments from going over unnatural routes.

SAW HIM ELECTROCUTED.

Club Members Witness the Death of
Their Steward.

New York, Sept. 29.—Half a hundred members of the North Hudson club, West Hoboken, witnessed the death of their steward, William Wiebach, who was killed by a live electric wire on the roof of the clubhouse while they stood powerless to save him.

Wiebach went to the roof to raise the wire, which had blown down from the insulator. The current, coming in contact with the wet tin, showered sparks in every direction.

With Wiebach were two members of the club. They cautioned him not to go near it, but he declared there was no danger. A moment later the wire encircled him. His cries brought other members from the building, but the body was extricated with great difficulty and danger.

British Iron Dealers Alarmed.

London, Sept. 29.—The complaint is rife in British iron and steel markets that although inquiries still come liberally from the United States for pig iron and steel billets, the resulting business mostly goes to the continent. Large American orders have been placed in Germany and some in France at prices below those obtaining in Great Britain, and it is feared that the whole transatlantic demand will become directed to foreign producers. Some Welsh works are even buying German iron in preference to the dearer Cumberland metal.

Woman Strangled to Death.

Mobile, Ala., Sept. 29.—In a little cottage on the south side of Savannah between Broad and Marine streets, about 2:30 o'clock Sunday morning, Mrs. Helen Dickson was foully murdered by some unknown person, supposed to be a negro fiend, bent on criminal assault. Death was due to strangulation. Miss Helen Robertson, her niece, and her 3-year-old son, Albert, were in the bed with her all the time.

Deaths in Sicily Growing.

London, Sept. 29.—A special dispatch from Rome says the death toll resulting from the recent hurricane in Sicily is swelling. The bodies of 600 persons are now awaiting burial, and as the means for prompt interment are lacking there is grave fear of an epidemic.

Dividends Will Be Small.

New York, Sept. 29.—October does not give much promise of being an important month as regards dividend disbursements by industrial companies, the total thus far announced reaching \$18,274,737. This is much below the monthly average.

THE NEW CITY SHAVING PARLOR

The New Mineral Water

HEPTOL SPLITS IS "IT."

Thinking people now realize that dosing the system with Calomel, Pills and other strong purgatives is a grave mistake and very injurious. The physical organs occasionally become tired and fail to respond to the duties of nature, thereby clogging the system, and then a stimulative laxative is required to remove the accumulated poisons and to again start in motion the vital machinery; for this purpose some mild non-injurious remedy should be used. That is what

Heptol Splits

are for.

DELICIOUSLY PALATABLE,

GENTLE IN ACTION,

GRATIFYING IN RESULTS.

Heptol Splits meets the approval of all. Everyone should take Heptol Splits. Don't you be the last to try it. Sold at drug stores, soda fountains, cafes and bars at 15c a Split. Manufactured by the Morrison Drug Co., Waco, Texas.

JUST AND NECESSARY.

Judge Reagan So Regards the Propo-
sed Poll Tax Amendment.

Austin, Tex., Sept. 27.—Judge
John H. Reagan discussed the
proposed poll tax amendment as
follows today:

"Judge Reagan, would you con-
sent to give an expression of your
views on the proposed amendment
to the State Constitution requiring
voters to pay a poll tax? he was
asked.

"I regard the proposed amend-
ment to the State Constitution, so
as to require the payment of a poll
tax in order to authorize the citi-
zens to vote, as so just and neces-
sary that I do not object to making
a brief statement of my views on
the subject.

"As I understand it the citizen
pays a poll tax as the price of the
protection of his person and per-
sonal rights by the government.
And that he pays a property tax as
the price of protection of his prop-
erty by the Government.

"A failure to comply with the
law by the payment of such a tax
is a breach of his duty, and bad
faith to the government on which
he relies for protection, and is a
dishonorable neglect of a public
duty. By such a course he impos-
es on others the payment of his
debt, by violating the law which
requires him to pay his own debt,
and is as much a moral wrong-
doer as if, in any other way, he
had cheated some other citizen out
of what his poll tax would be.

"The State Comptroller esti-
mates the full report for that year,
1901, not being quite complete)
that 135,844 persons failed to pay
their poll tax. The poll tax is
\$1.50 a year; \$1 of which goes to
the school fund and 50 cents to the
general revenue. That means that
by a failure of the non-taxpayers
to comply with the law and their
duty, the common free school fund
was, for that year, deprived of
\$136,844, and the general revenue
of the State was deprived of \$68,-
422. And this depletion of the
free school fund and of the general
revenue has been going on for the

last 26 years; by which the school
fund and state revenue are estima-
ted to have lost between \$15,000,-
000 and \$20,000,000. And this loss
has imposed on the honest taxpay-
ers of the state the necessity of
making up that deficiency.

"To allow this condition of
things to go on is such a flagrant
and manifest injustice to the school
fund, to the state revenue and to
the honest taxpayers, as to de-
mand a prompt remedy, and as to
have justified the last Legislature
to propose an amendment of the
Constitution so as to deprive those
who refuse to obey the law and to
pay their poll tax, the privilege of
participating in the election of
those who make and who adminis-
ter the laws of the state, by a vote
of 85 to 15 in the House of Repre-
sentatives and by a unanimous
vote in the senate.

"What right has any one to en-
joy the protection of the law and
all the privileges of a citizen, who
refuses to obey the law and to con-
tribute to the support of the gov-
ernment and the school fund?"

"Has your attention been called
to the allegation that the adoption
of the proposed amendment to the
Constitution would affect the ne-
gro population more than the
white?" he was asked.

"There is no merit in that claim,"
Judge Reagan replied. "The law
applies alike and equally to whites
and blacks. The negroes have had
and now have the same free com-
mon school privileges as the
whites, and a valuable normal
school, supported by the state, for
the education of negro teachers.
So that as a race they have no rea-
son to allege the want of education
as a justification for their failure
to contribute, at least a poll tax to
the support of the government and
to the free school fund."

"Common honesty, duty to the
public and justice to the good peo-
ple who pay their taxes to support
the government and to carry on
the free schools, requires that al-
l voters, whether white or black
shall pay at least a poll tax."

*In the last 13 years the state
has paid out for negro free schools
\$12,289,766.

BURNED AT THE STAKE

Negro Pays an Awful Penalty for
Crime in Mississippi.

CONFESSED THE DEED

He Told of the Assault and Murder of
Mrs. Whitfield and Then Con-
fessed to Other Crimes He
Had Committed There.

Corinth, Miss., Sept. 29.—Writhing
in the flames of fagots piled high by
hundreds of citizens Tom Clark, alias
Will Gibson, a young negro, was
burned at the stake here at a late
hour Sunday. Clark had confessed to
one of the most atrocious assaults and
murders in the history of north Mis-
sissippi and said that he deserved his
awful fate.

On Aug. 19 last Mrs. Carey Whit-
field, the wife of a well known citi-
zen, was found dead in her home. In-
vestigation showed that she had been
assaulted and her head was practi-
cally severed from her body, a razor
having been used in the bloody work.
Both Whitfield and his wife were re-
lated to several of the most prominent
families in the south and the indig-
nation of the people knew no bounds.
Corinth and the surrounding country
was scoured in an effort to apprehend
the murderer, but diligent search failed
to disclose his identity.

A week ago it became known that
Tom Clark, a negro living near here,
had had trouble with his wife and the
latter threatened to disclose the se-
cret of a crime. Officers apprehended
the woman and she told enough to
warrant the belief that Clark had mur-
dered Mrs. Whitfield. Clark was ar-
rested and Saturday finally confessed
to the murder and also told of other
crimes that he had committed. He
said that several years ago he killed
two men on an excursion train in Mis-
sissippi. He told of an outrage perpe-
trated by himself upon a negro woman
and also of the theft of \$1500 from a
physician at French Camp, Miss. Clark
said that he had never been suspected
of having committed any of these
crimes and had covered up his tracks
in a way to deceive the officers of the
law.

The news of the negro's arrest and
confusion spread rapidly over the sur-
rounding country and Sunday's trains
brought hundreds of people into the
city. The crowds became so great
that at midday the main street of
the town was ordered cleared and the
announcement was made that it had
been decided to burn Clark at 3:30
o'clock in the afternoon. This state-
ment caused much excitement and
surging crowds of people began to
gather about the place selected for the
enactment of the awful tragedy.

At 2 o'clock pine fagots and larger
pieces of wood were carefully laid
about an iron rod which was driven
deep into the ground, and half an hour
later it was announced that all was in
readiness.

At 3 o'clock the prisoner was taken
from the jail by a posse of armed men
and followed by a large and excited
crowd of men and boys, was led to the
east gate of the negro cemetery where
he was completely fastened to the iron
rod. Clark was asked if he cared to
make a statement. He again said that
he deserved the fate prepared for him
and asked that a letter be delivered
to his mother and brother. He ap-
pealed to his brother to raise his chil-
dren properly, admonishing them to
beware of evil companions. Finally
fire was set to the wood and the body
was burned to a crisp.

CAMPBELLTON FLOODED.

Many Houses Were Demolished but No
Lives Were Lost.

Campbellton, Tex., Sept. 29.—Camp-
bellton was visited by a waterspout
Friday night, as a result of which the
town was completely under water all
day Saturday. Several hundred houses
in the Mexican settlement were de-
molished and all the inhabitants of
the town were forced to flee to the
high grounds for safety.

There was no loss of life in Camp-
bellton, though there were several
narrow escapes and the damage to live
stock and other property has been
heavy.

The whole country for miles in the
vicinity was covered and enormous
losses have been caused to ranchmen
by the drowning of live stock, destruc-
tion of fences, and carrying away of
material.

At Leesburg the water is higher
than for twenty-five years.

Mobile Citizen Assassinated.

Mobile, Sept. 29.—William Godeau, a
cotton handler, living at Cottage Hill,
ten miles west of Mobile, was shot and
killed early Sunday by some unknown
person. Godeau, becoming aware of a
disturbance in his yard, went out of
his house to investigate, taking a
shotgun with him. Directly afterwards
two reports were heard and neighbors
who rushed to the scene found Godeau
dead.

May Have Been Murdered.

Floresville, Tex., Sept. 29.—Last Sat-
urday Felix Gabreich was found
drowned in the Cibola, a dozen miles
from here. He was supposed to have
been drowned. Recently, however, it
was whispered about that probably he
was murdered and his body thrown in
the swollen stream. Lawrence Kal-
lodzie and Francisco Herrera were ar-
rested and jailed here.

Cholera in Egypt.

Cairo, Sept. 29.—Cholera statistics
from Egypt for the week just ended
were 4421 fresh cases and 3902 deaths.
The large towns have been kept won-
derfully free from the epidemic.

Better To Kill Than Save.

The government pays pensions to the widows and orphans of soldiers, men engaged to kill, but none to the families of the Coast Guard Life Savers, killed in their service which is no less arduous and dangerous than the battlefield. Both are heroes and are entitled to and should receive equally grateful recognition for their self-sacrificing deeds. An intensely interesting exhibit in the arena of Buffalo Bill's Wild West is that by which a crew of Life Savers, on furlough from the government service during the summer, show how they reach a wreck with their lines and operate a "breeches buoy" to save lives. To be seen here on Oct. 18.

Dr. Long, oculist. Office at Wilson & Jenkins drug store. Treats and cures any disease of the eye that is curable. Give him a call. 233tf

For Sale—A nice, neat, rubber tire buggy and good horse, for sale cheap. Apply to H. B. Dorsey at Exchange Shaving Parlor. 56

PENSIONS PAID.

Report of Commissioner Ware Says Total Still Under the Million Mark.

Washington, Sept. 29.—The annual report of the commissioner of pensions, Eugene F. Ware, shows that the number of names on the pension rolls still is under the million mark, despite a net gain of 5732 pensioners since 1898. The total enrollment July last was 999,446 against 997,735 last year. The total comprises 738,809 soldiers and 260,637 widows and dependents. The aggregate includes 4695 pensioners outside the United States.

The number of death notices of old soldiers, not now in the service received by the bureau during the year, was 59,128; but only 27,043 of them were pensioners.

The report says that the death rate among the pensioners for the coming year will be about 40,000, and the losses to the rolls from other causes will be about 6000. The total amount paid for pensions during the fiscal year was \$137,506,268 and the yearly cost of operating and maintaining the bureau and the agencies outside of the payment of pensions proper, aggregates \$3,500,529. The pension system, says the report, since the beginning of the government has cost \$2,992,509,019, exclusive of the establishment of the soldiers' homes. The pension disbursements by the United States from July 1, 1790 to June 30, 1865, were \$96,445,444.

NOT A CAR MOVED.

Strike at New Orleans Ties up All the Electric Car Lines.

New Orleans, Sept. 29.—Not a single street car was operated in the city Sunday, both sides devoting the day to preparation for the struggle. The union electrical men established headquarters and arranged forces near the various barns, besides aligning the linemen and other unions to aid in the cause. The street railway company advertised for 900 men and asked the mayor for two policemen for each car Sunday. Later the advertisement was withdrawn, while an effort was made to have the men return to work and submit the differences to arbitration. The street car men are considering this proposition, but up to midnight there is no prospect of peace. So far there has not been any trace of disorder.

Another Storm on Sicily.

Syracuse, Sicily, Sept. 29.—A fresh storm burst over the district of Santa Maria Sunday and many houses were destroyed. The stormy weather continues generally throughout Sicily. It is now believed that 200 persons perished at Modica during the tornado. The village of Sortino was practically

destroyed and forty-three persons were drowned. The water rose in a church to a height of twelve feet. Many children lost their lives. There have been some disgraceful scenes of pillage from the ruins and from bodies. The total damage as the result of the tornado is expected to amount to over \$2,500,000.

Policeman Attacked by Negroes.

Richmond, Tenn., Sept. 29.—Patrolman J. K. Murray of the city police force was attacked by a crowd of negroes Sunday and severely beaten. He was investigating Saturday's riot, in which Barber, a streetcar employee, was shot by a negro, when he came upon a group of excited negroes and ordered them to disperse. The men attacked him and Murray drew his pistol and fired, wounding one of them. They closed on him, got his pistol away and were beating him when citizens rallied and drove them off. Several arrests were made.

Shot a Woman and Himself.

Memphis, Tenn., Sept. 29.—Joseph Emera, a well known young man of Vicksburg, Miss., Sunday shot and seriously wounded Miss Rosa Borodfsky, and turning the weapon upon himself inflicted what is thought to be a fatal wound. Love affair the cause.

The Cable to Manila.

New York, Sept. 29.—Vice President George G. Ward of the Commercial Cable company, who arrived on the steamship Celtic, made the assertion on landing that the United States would be able to open cable communication with Manila, P. I., by July 4, 1903.

Cotton Stalk Ten Feet High.

Marshall, Tex., Sept. 29.—W. B. Anderson, a farmer living five miles west of here, brought to this city a cotton stalk measuring 10 feet 6½ inches in height. This is the tallest stalk ever seen here. It has no matured bolls.

Isthmus Situation Unchanged.

Colon, Sept. 29.—The situation on the isthmus remains unchanged. Free transit between Colon and Panama obtains, and American marines and blue jackets are still traveling on all trains.

Theatrical Manager Dead.

St. Louis, Sept. 29.—Thos. Hawkes, a theatrical manager of Paris, died at the city hospital here from hemorrhage of the lungs.

NEWS IN BRIEF.

James Murray of Galveston, Tex., has been arrested, charged with smuggling and assaulting a customs inspector.

August McNitzky of Denton, Tex., died from an attack of apoplexy.

The Korean emperor is not dead as was reported last week.

NEW YORK DEMOCRATS

Leaders at Saratoga Endeavoring to
Make a Platform.

DIFFER ON FINANCE

Some Want Silver Remain as a Decla-
ration of the Party, While Others
Believe Gold Should Be the
Standard of the Party.

Saratoga, Sept. 29.—The arrival of
former Senator Hill, Chairman Frank
Campbell of the state committee, Wil-
liam Sulzer, Senator McCarren and
other leaders to-day gave rise to dis-
cussion over probable and proposed
platforms to be adopted by the Demo-
cratic state convention. It is learned
that a tentative platform has been
agreed upon, but it is said some of its
planks are causing much discussion.
William Hepburn Russell, Jacob A.
Cantor, James P. Shevlin and some
others are of the opinion the platform
should be brief and conservative, and
while arraigning the Republicans, it
should be so carefully constructed as
not to pledge the Democratic party to
policies it could not carry out without
danger to corporations and individu-
als.

The one plank of the platform that
is testing the capacity of the leaders
in their desire to avoid friction is the
financial plank, and already there is
discussion of it. Those who two years
ago were insistent upon indorsement
of the Kansas City and Chicago plank
are equally as firm now. Representa-
tive Sulzer, Norman E. Mack and others
who represented for years Bryan's
interests, are insisting that the plank
shall be outspoken, but the other side
of the controversy, led by Senator
Hill, is urging that as the so-called
"liberal Democracy" of the state has
already filed a certificate of the nomi-
nation of an independent state ticket
on the free silver platform, this con-
vention should declare for a gold
standard.

The only certainties in the list of
nominees are John Gunneen of Erie
for attorney general and Judge C. Gray
for the court of appeals.

It was believed Sunday night that
Edwin Atwater of Poughkeepsie was
slated for the comptrollership, but a
vigorous fight is being made for the
place by friends of Mr. Finch of Glen's
Falls. Atwater, who is a wealthy
banker, has been the nominee of the
party two successive times, and as he
has contributed largely to campaign
expenses his friends believe he should
have a chance again.

ALGER IS SENATOR.

Accepts the Offer to Fill the Unexpired
Term of Senator McMillan.

Detroit, Sept. 29.—General Russell
A. Alger, former secretary of war, has
formally accepted Governor Bliss' ten-
der of the position of United States
senator, to fill the unexpired term
caused by the death of Senator Mc-
Millan.

Met Death Saving a Train.

Missola, Mont., Sept. 29.—William
Johnson, a section foreman, met his
death by being struck by the engine of
the Northern Pacific through passenger
train while endeavoring to flag the
train to save it from being wrecked.
He discovered a broken rail but a few
minutes before the passenger train was
due. Johnson saved the train, but was
hurled high into the air and into a
ditch. He died two hours afterward
aboard the train, which was hurrying
for medical assistance. He leaves a
widow and two children.

President's Condition Satisfactory.

Washington, Sept. 29.—The presi-
dent's physicians authorized the fol-
lowing statement:

"The condition of the wound is satis-
factory. His temperature is normal.
The patient slept well Sunday night,
and at present occupies a rolling chair.
Is cheerful, and from the beginning
has shown neither impatience nor rest-
lessness, but has carried out the direc-
tions of the physicians with scrupu-
lous care."

Robbing of Graves Stopped.

Indianapolis, Sept. 29.—The wholesale
robbery of graves in cemeteries about
Indianapolis has been brought to a
close by the arrest of a gang of seven
negroes. Warrants also were issued
for a prominent physician, demonstra-
tor of anatomy in a local medical col-
lege, where two stolen bodies were
found ten days ago. Rufus Cantrell,
one of the negroes, made a complete
confession and implicated others.

Panama Traffic Uninterrupted.

Washington, Sept. 29.—The navy de-
partment is advised of the receipt of a
cable dispatch from Vice Consul Ehr-
man at Panama in which he states
that trains are running regularly over
the Panama railroad and that no dis-
turbance is apprehended. Occasion-
ally bands of insurgents are seen along
the line of the road, but they offer no
obstacle to the operation of trains.

Irish Members Preparing a Program.

Dublin, Sept. 29.—John Redmund,
chairman of the Irish parliamentary
party, has summoned a meeting of the
Nationalist members of parliament for
Oct. 7 to prepare a program for the
coming session.

Freight Wreck at Denton.

Denton, Tex., Sept. 29.—Fourteen
freight cars were derailed and some of
them torn into splinters in the Katy
yards here Saturday night. The ac-
cident occurred at a switch just south
of the freight depot.

EMILE ZOLA DEAD.

The Novelist Was Asphyxiated at His
Paris Home.

Paris, Sept. 29.—Emil Zola, the no-
velist, who was born in Paris April 2,
1840, is dead. He was found dead in
his house from asphyxiation. His wife
is gravely ill.

Zola was asphyxiated by fumes
from a stove, the pipes of which are
said to have been out of order. At the
same time it is stated there are indi-
cations of suicide. Zola and his wife
returned to Paris Sunday after spend-
ing three months in the country.

When Zola returned from his coun-

EMILE ZOLA.

try house at Medan, owing to a sudden
spell of cold weather, he ordered a
heating stove in his room to be light-
ed. The stove burned badly, but Zola
and his wife retired at 10 o'clock Sun-
day night, and the servants not hear-
ing any movement in the apartment
entered the bedroom at 9:30 o'clock
and found Mme. Zola lying on the bed
inanimate. Zola was lying half out of
bed, with his head and shoulders on
the floor and his legs on the bed. Doc-
tors were summoned, but they failed
to restore Zola to life. After prolonged
efforts they resuscitated Mme. Zola.

STOPPED BY A MOB.

Train With Miners Stoned While on the
Way to a Colliery.

Pottsville, Pa., Sept. 29.—A miners'
train on the Pennsylvania railroad,
bound for Richards' colliery, near
Mount Carmel, was stopped by a mob,
who refused to allow the train to pro-
ceed. The train was so thoroughly
stoned that only two window panes
were left unbroken. Most of the men
on board got under the seats and es-
caped injury. Passengers on the train
consisted of carpenters, repairmen and
pumpmen for Richards' colliery.

Three men on the way to work at
the Pennsylvania colliery at Green
Ridge were pulled off a trolley car by
a mob and severely beaten.

Shows Little Change.

Wilkesbarre, Pa., Sept. 29.—The
opening of the twenty-first week of the
coal strike shows very little change in
the situation. Operators say they
have more men at work than they had
on any day last week. At strike head-
quarters reports received show there
has been no break in the ranks of the
strikers.

Several battalions of troops scoured
the Wyoming region but found no
crowds assembled at any mines.

Sheriff Jacobs says troops may be
called upon when there is an outbreak
to suppress it, but that they will not
do police duty and no soldiers will be
placed behind barricades at the mines.

Will Seek Sunken Coal.

New York, Sept. 29.—Owing to the
high prices for coal an organized plan
for securing supplies of the "dusky
diamond" from the waters of Long Is-
land Sound will be put in operation
this week, says a Bridgeport, Conn.,
dispatch.

Many barges loaded with anthracite
have been wrecked in the sound. A
company has been organized to recover
the coal by means of "sweep" boats,
which will be used to locate the
wrecks. A diver will be sent down to
each wreck, and if the outlook is satis-
factory powerful pumps will be put to
work, the coal will be sucked up and
run over screens into the dredges.

North Pole Good for Consumptives.

New York, Sept. 29.—Commander
Robert F. Peary, the Arctic explorer,
who has arrived here from the north
on his way to Washington, where he
will report to the navy department for
duty, says it is his belief that the Ar-
ctic region is one of the best places on
earth for persons afflicted with pul-
monary diseases. In proof of the
health-giving conditions there he
said that nearly everybody who
went up there came back weighing more and
in a much better state of health gen-
erally.

Serious Fire at Stockton.

Stockton, Cal., Sept. 29.—The agri-
cultural pavilion, together with all its
contents and two residence blocks,
with the exception of a few buildings
were destroyed by fire here Sunday
night. It was only by determined work
on the part of the firemen, assisted
by the thick shade trees, that the
flames were prevented from spreading
still further. Total loss will reach
\$500,000.

Married Her Master of Horse.

London, Sept. 29.—Separate dispatch-
es from Madrid says it is reported
there that Queen Marie Christina,
mother of King Alfonso, married her
master of horse count, Dela Escosura,
while in Austria recently.

New Lord Mayor of London.

London, Sept. 29.—Sir Marcus Sam-
uel has been elected Lord Mayor of
London for the ensuing year, succeed-
ing Sir Joseph C. Dimdale.

ANOTHER OPERATION

The Abscess on the President's Leg
Cut With the Knife.

BONE WAS AFFECTED

Physicians State That the Speedy Re-
covery of the President Is Expected
and That No Danger Is Now
Anticipated by Them.

Washington, Sept. 29.—Another operation was performed Sunday on the abscess on the left leg of President Roosevelt. In the former operation a simple needle was used to relieve the trouble, but Sunday the surgeons with a knife made an incision into the small cavity, exposing the bone which was found to be slightly affected. The president's case has been progressing satisfactorily, but it is believed by the physicians that the further operation made Sunday will hasten his complete recovery. While none of the doctors are willing to be quoted, they give the most positive assurances that there is not the least cause for alarm, and say, on the contrary, there is every indication of a speedy recovery, that the area of the bone affected is very slight and will not result in an impairment of the president's limb and that there is no evidence whatever of any matter that would produce blood poisoning. They confidently expect that the president will be on his feet within a reasonable time and with his robust constitution to assist recovery will soon be himself again.

Dr. Newton Shaffer of New York, who long has been acquainted with the Roosevelt family and has attended the president's children at various times and who is also a well known bone specialist, joined the president's physicians in their morning consultation at 10 o'clock.

The president stood the operation very well and subsequently expressed his satisfaction at the successful result.

Dr. Rixey, the surgeon general of the navy, performed the operation assisted by Dr. Lung, the president's regular physician. Dr. O'Reilly who also was present with the other physicians is the surgeon general of the army and heretofore has been consulted regarding the care. Dr. Edward R. Sitt, another of those present, is in charge of the naval museum of hygiene and medical school.

Secretary Cortelyou at 3:30 o'clock Sunday afternoon issued the following statement: "Dr. Newton M. Shaffer of New York joined the president's physicians in consultation this morning at 10 o'clock. The increase in local symptoms and a rise in temperature rendered it necessary to make an incision into the small cavity, exposing the bone, which was found to be slightly affected. Thorough drainage is now established and the physicians feel confident that recovery will be uninterrupted.

"The operation was performed by Surgeon General Rixey, assisted by Dr. Lung and in consultation with Surgeon General O'Reilly and Drs. Shaffer, Vrie and Sitt."

STRIKE SITUATION.

Statement of Mitchell Regarding the
Strikers as a "Ten Strike."

Wilkesbarre, Pa., Sept. 29.—Some of the local coal operators, after being shown a statement issued by President Mitchell of the United Mine Workers Sunday, in which he gives facts and figures refuting the statements of President Baer, said it would probably be the last he will give to the public before the ending of the strike.

They claim his appeal is made up of generalities, and that he endeavors to win public sympathy by making a plea for child labor. One operator said the condition of child labor in the coal regions is much better than it is in the manufacturing districts of the country; that the wages paid are better and the working hours shorter.

At strike headquarters Mr. Mitchell's last deliverance is termed a "ten strike," and that the facts and figures he presents are irrefutable.

The military authorities, Sheriff Jacobs and some of the superintendents of the coal companies in this vicinity held a meeting in the office of one of the coal companies and talked over a plan by which the troops can be moved promptly to scenes of disturbance.

It is not the purpose of the militia to do police duty, but if any of the companies can get men to go to work the soldiers will give them protection. It is reported again that attempts will be made today to resume work at several collieries in this region which have been idle since the strike began, but the report cannot be verified.

At strike headquarters it was claimed that there will be no change in the situation the coming week, which is the twenty-first of the strike; that the strikers are as firm as ever, and that there will be no desertions from the ranks to make it possible for the coal companies to start up any new collieries.

The Ninth regiment went into camp at Westside park Sunday afternoon in the midst of a drenching rain storm.

The Sheridan troop, ordered out by the governor Sunday, will join the Thirteenth regiment at Olyphant, Lackawanna county.

Profit in Sweet Potatoes.

Terrell, Tex., Sept. 29.—J. W. Spradlin of Hiram, in the eastern portion of this county, has grown and already marketed 240 bushels of yellow yam potatoes from three and three-quarter acres of land this year. He has dug only about half of his crop, which he estimates will yield 200 bushels per acre.

WRECK ON INTERURBAN.

The Motorman Seriously Injured and
Several Passengers Hurt.

Fort Worth, Sept. 29.—In a collision near Handley on the Interurban Electric railway between Fort Worth and Dallas, eight persons were injured, the motorman, Dan Leonard, seriously. The cars came together on the main track at high speed. It is likely some of the injured will die.

As far as can be learned the wreck was caused by either a misunderstanding or disobedience of orders by the motorman of the eastbound 8 o'clock car from Fort Worth. The 7 o'clock car from Dallas was instructed to meet the Fort Worth car at station six, one mile west of Handley, and leave after a few minutes if no other car was in sight. It is said that orders to the same effect were given the motorman of the eastbound car before leaving Fort Worth, and were changed at a substitution a few miles from here to the effect that he should wait at station four, seven miles this side of station six.

The motorman at station six started to pull out when the other car crashed into him.

The injured are:
Geo. D. Hodge, Handley.
Mr. and Mrs. Adams, Fort Worth.
E. P. Green, Oak Cliff.
Mr. Johnson, Oak Cliff.
Dan Leonard, motorman, Oak Cliff.
Miss Allie Graham, Handley.
Miss Verdie Kell, Handley.
Mrs. Adams' injuries are thought to be serious; the others are not badly hurt.
The injured, except Leonard and the Handley parties, were brought here. The cars wrecked were taken to the Handley shops.
The local officers refuse to fix the blame and state that no one was seriously hurt, except Leonard, who was shocked and rendered unconscious.

DISCRIMINATING RATE.

The Low Freight Rate on Cotton Favors
Louisiana Points Against Texas.

Austin, Sept. 29.—The railroad commission is considering the proposition to put an emergency rate on cotton between Kilgore and Longview, and from Kilgore and Longview to Houston, Galveston and other points in Texas, to offset certain reductions made by certain lines in order to haul to Shreveport and New Orleans, thereby discriminating against Galveston and other points. A representative from Henderson entered a protest against the proposed emergency rate. Letters were read from the International and Great Northern to the effect that one road handling cotton over an indirect route to Shreveport and Longview handled 10,000 bales of cotton, all shipped to Shreveport. A number of witnesses were placed on the stand and all showed that rates had been cut and Shreveport was getting the best of the deal to the discrimination of Houston, Galveston and other points. The rate between Kilgore and Longview is now 15 cents, and the commission's proposition is to put a 40-cent rate between the two points to stop shipments from going over unnatural routes.

SAW HIM ELECTROCUTED.

Club Members Witness the Death of
Their Steward.

New York, Sept. 29.—Half a hundred members of the North Hudson club, West Hoboken, witnessed the death of their steward, William Wiebach, who was killed by a live electric wire on the roof of the clubhouse while they stood powerless to save him.

Wiebach went to the roof to raise the wire, which had blown down from the insulator. The current, coming in contact with the wet tin, showered sparks in every direction.

With Wiebach were two members of the club. They cautioned him not to go near it, but he declared there was no danger. A moment later the wire entangled him. His cries brought other members from the building, but the body was extricated with great difficulty and danger.

British Iron Dealers Alarmed.

London, Sept. 29.—The complaint is rife in British iron and steel markets that although inquiries still come liberally from the United States for pig iron and steel billets, the resulting business mostly goes to the continent. Large American orders have been placed in Germany and some in France at prices below those obtaining in Great Britain, and it is feared that the whole transatlantic demand will become directed to foreign producers. Some Welsh works are even buying German iron in preference to the dearer Cumberland metal.

HEPTOL SPLITS

IS "IT."

Thinking people now realize that dosing the system with Calomel, Pills and other strong purgatives is a grave mistake and very injurious. The physical organs occasionally become tired and fail to respond to the duties of nature, thereby clogging the system and then a stimulative laxative is required to remove the accumulated poisons and to again start in motion the vital machinery; for this purpose some mild non-injurious remedy should be used. That is what

Heptol Splits

are for.

DELICIOUSLY PALATABLE,

GENTLE IN ACTION.

GRATIFYING IN RESULTS.

Heptol Splits meets the approval of all. Everyone should take Heptol Splits. Don't you be the last to try it. Sold at drug stores, soda fountains, cafes and bars at 15c a Split. Manufactured by the Morrison Drug Co., Waco, Texas.

JUST AND NECESSARY.

Judge Reagan So Regards the Propo-
sed Poll Tax Amendment.

Austin, Tex., Sept. 27.—Judge
John H. Reagan discussed the
proposed poll tax amendment as
follows today:

"Judge Reagan, would you con-
sent to give an expression of your
views on the proposed amendment
to the State Constitution requiring
voters to pay a poll tax? he was
asked.

"I regard the proposed amend-
ment to the State Constitution, so
as to require the payment of a poll
tax in order to authorize the citi-
zens to vote, as so just and neces-
sary that I do not object to making
a brief statement of my views on
the subject.

"As I understand it the citizen
pays a poll tax as the price of the
protection of his person and per-
sonal rights by the government.
And that he pays a property tax as
the price of protection of his prop-
erty by the Government.

"A failure to comply with the
law by the payment of such a tax
is a breach of his duty, and bad
faith to the government on which
he relies for protection, and is a
dishonorable neglect of a public
duty. By such a course he impos-
es on others the payment of his
debt, by violating the law which
requires him to pay his own debt,
and is as much a moral wrong-
doer as if, in any other way, he
had cheated some other citizen out
of what his poll tax would be.

"The State Comptroller esti-
mates the full report for that year,
1901, not being quite complete)
that 135,844 persons failed to pay
their poll tax. The poll tax is
\$1.50 a year; \$1 of which goes to
the school fund and 50 cents to the
general revenue. That means that
by a failure of the non-taxpayers
to comply with the law and their
duty, the common free school fund
was, for that year, deprived of
\$136,844, and the general revenue
of the State was deprived of \$68,-
422. And this depletion of the
free school fund and of the general
revenue has been going on for the

last 26 years; by which the school
fund and state revenue are estima-
ted to have lost between \$15,000,-
000 and \$20,000,000. And this loss
has imposed on the honest taxpay-
ers of the state the necessity of
making up that deficiency.

"To allow this condition of
things to go on is such a flagrant
and manifest injustice to the school
fund, to the state revenue and to
the honest taxpayers, as to de-
mand a prompt remedy, and as to
have justified the last Legislature
to propose an amendment of the
Constitution so as to deprive those
who refuse to obey the law and to
pay their poll tax, the privilege of
participating in the election of
those who make and who adminis-
ter the laws of the state, by a vote
of 85 to 15 in the House of Repre-
sentatives and by a unanimous
vote in the senate.

"What right has any one to en-
joy the protection of the law and
all the privileges of a citizen, who
refuses to obey the law and to con-
tribute to the support of the gov-
ernment and the school fund?"

"Has your attention been called
to the allegation that the adoption
of the proposed amendment to the
Constitution would affect the ne-
gro population more than the
white?" he was asked.

"There is no merit in that claim,"
Judge Reagan replied. "The law
applies alike and equally to whites
and blacks. The negroes have had
and now have the same free com-
mon school privileges as the
whites, and a valuable normal
school, supported by the state, for
the education of negro teachers.
So that as a race they have no re-
ason to allege the want of education
as a justification for their failure to
contribute, at least a poll tax to
the support of the government and
to the free school fund.*

"Common honesty, duty to the
public and justice to the good
people who pay their taxes to support
the government and to carry on
the free schools, requires that al,
voters, whether white or black
shall pay at least a poll tax."

*In the last 13 years the state
has paid out for negro free schools
\$12,289,766.

BURNED AT THE STAKE

Negro Pays an Awful Penalty for
Crime in Mississippi.

CONFESSED THE DEED

He Told of the Assault and Murder of
Mrs. Whitfield and Then Con-
fessed to Other Crimes He
Had Committed There.

Corinth, Miss., Sept. 29.—Writhing
in the flames of fagots piled high by
hundreds of citizens Tom Clark, alias
Will Gibson, a young negro, was
burned at the stake here at a late
hour Sunday. Clark had confessed to
one of the most atrocious assaults and
murders in the history of north Mis-
sissippi and said that he deserved his
awful fate.

On Aug. 19 last Mrs. Carey Whit-
field, the wife of a well known citi-
zen, was found dead in her home. In-
vestigation showed that she had been
assaulted and her head was practi-
cally severed from her body, a razor
having been used in the bloody work.
Both Whitfield and his wife were re-
lated to several of the most prominent
families in the south and the indig-
nation of the people knew no bounds.
Corinth and the surrounding country
was scoured in an effort to apprehend
the murderer, but diligent search failed
to disclose his identity.

A week ago it became known that
Tom Clark, a negro living near here,
had had trouble with his wife and the
latter threatened to disclose the se-
cret of a crime. Officers apprehended
the woman and she told enough to
warrant the belief that Clark had mur-
dered Mrs. Whitfield. Clark was ar-
rested and Saturday finally confessed
to the murder and also told of other
crimes that he had committed. He
said that several years ago he killed
two men on an excursion train in Mis-
sissippi. He told of an outrage perpe-
trated by himself upon a negro woman
and also of the theft of \$1500 from a
physician at French Camp, Miss. Clark
said that he had never been suspected
of having committed any of these
crimes and had covered up his tracks
in a way to deceive the officers of the
law.

The news of the negro's arrest and
confusion spread rapidly over the sur-
rounding country and Sunday's trains
brought hundreds of people into the
city. The crowds became so great
that at midday the main street of
the town was ordered cleared and the
announcement was made that it had
been decided to burn Clark at 3:30
o'clock in the afternoon. This state-
ment caused much excitement and
surging crowds of people began to
gather about the place selected for the
enactment of the awful tragedy.

At 2 o'clock pine fagots and larger
pieces of wood were carefully laid
about an iron rod which was driven
deep into the ground, and half an hour
later it was announced that all was in
readiness.

At 3 o'clock the prisoner was taken
from the jail by a posse of armed men
and followed by a large and excited
crowd of men and boys, was led to the
east gate of the negro cemetery where
he was completely fastened to the iron
rod. Clark was asked if he cared to
make a statement. He again said that
he deserved the fate prepared for him
and asked that a letter be delivered
to his mother and brother. He ap-
pealed to his brother to raise his chil-
dren properly, admonishing them to
beware of evil companions. Finally
fire was set to the wood and the body
was burned to a crisp.

CAMPBELLTON FLOODED.

Many Houses Were Demolished but No
Lives Were Lost.

Campbellton, Tex., Sept. 29.—Camp-
bellton was visited by a waterspout
Friday night, as a result of which the
town was completely under water all
day Saturday. Several hundred houses
in the Mexican settlement were de-
molished and all the inhabitants of
the town were forced to flee to the
high grounds for safety.

There was no loss of life in Camp-
bellton, though there were several nar-
row escapes and the damage to live
stock and other property has been
heavy.

The whole country for miles in the
vicinity was covered and enormous
losses have been caused to ranchmen
by the drowning of live stock, destruc-
tion of fences, and carrying away of
material.

At Leesburg the water is higher
than for twenty-five years.

Mobile Citizen Assassinated.

Mobile, Sept. 29.—William Godeau, a
cotton handler, living at Cottage Hill,
ten miles west of Mobile, was shot and
killed early Sunday by some unknown
person. Godeau, becoming aware of a
disturbance in his yard, went out of
his house to investigate, taking a
shotgun with him. Directly afterwards
two reports were heard and neighbors
who rushed to the scene found Godeau
dead.

May Have Been Murdered.

Floresville, Tex., Sept. 29.—Last Sat-
urday Felix Gabreich was found
drowned in the Cibolla, a dozen miles
from here. He was supposed to have
been drowned. Recently, however, it
was whispered about that probably he
was murdered and his body thrown in
the swollen stream. Lawrence Kal-
lodzie and Francisco Herrera were ar-
rested and jailed here.

Cholera in Egypt.

Cairo, Sept. 29.—Cholera statistics
from Egypt for the week just ended
were 4421 fresh cases and 3902 deaths.
The large towns have been kept won-
derfully free from the epidemic.

Better To Kill Than Save.

The government pays pensions to the widows and orphans of soldiers, men engaged to kill, but none to the families of the Coast Guard Life Savers, killed in their service which is no less arduous and dangerous than the battlefield. Both are heroes and are entitled to and should receive equally grateful recognition for their self-sacrificing deeds. An intensely interesting exhibit in the arena of Buffalo Bill's Wild West is that by which a crew of Life Savers, on furlough from the government service during the summer, show how they reach a wreck with their lines and operate a "breeches buoy" to save lives. To be seen here on Oct. 18.

Dr. Long, oculist. Office at Wilson & Jenkins drug store. Treats and cures any disease of the eye that is curable. Give him a call. 233tf

For Sale—A nice, neat, rubber tire buggy and good horse, for sale cheap. Apply to H. B. Dorsey at Exchange Shaving Parlor. 56

BRYAN, TEXAS

PENSIONS PAID.

Report of Commissioner Ware Says Total Still Under the Million Mark.

Washington, Sept. 29.—The annual report of the commissioner of pensions, Eugene F. Ware, shows that the number of names on the pension rolls still is under the million mark, despite a net gain of 5732 pensioners since 1898. The total enrollment July last was 999,446 against 997,735 last year. The total comprises 738,809 soldiers and 260,637 widows and dependents. The aggregate includes 4655 pensioners outside the United States.

The number of death notices of old soldiers, not now in the service received by the bureau during the year, was 50,128; but only 27,043 of them were pensioners. The report says that the death rate among the pensioners for the coming year will be about 40,000, and the losses to the rolls from other causes will be about 6000. The total amount paid for pensions during the fiscal year was \$137,506,268 and the yearly cost of operating and maintaining the bureau and the agencies outside of the payment of pensions proper, aggregates \$3,500,529. The pension system, says the report, since the beginning of the government has cost \$2,992,509,019, exclusive of the establishment of the soldiers' homes. The pension disbursements by the United States from July 1, 1790 to June 30, 1895, were \$36,445,444.

NOT A CAR MOVED.

Strike at New Orleans Ties up All the Electric Car Lines.

New Orleans, Sept. 29.—Not a single street car was operated in the city Sunday, both sides devoting the day to preparation for the struggle. The union electrical men established headquarters and arranged forces near the various barns, besides aligning the linemen and other unions to aid in the cause. The street railway company advertised for 900 men and asked the mayor for two policemen for each car Sunday. Later the advertisement was withdrawn, while an effort was made to have the men return to work and submit the differences to arbitration. The street car men are considering this proposition, but up to midnight there is no prospect of peace. So far there has not been any trace of disorder.

Another Storm on Sicily.

Syracuse, Sicily, Sept. 29.—A fresh storm burst over the district of Santa Maria Sunday and many houses were destroyed. The stormy weather continues generally throughout Sicily. It is now believed that 200 persons perished at Modica during the tornado. The village of Sortino was practically

destroyed and forty-three persons were drowned. The water rose in a church to a height of twelve feet. Many children lost their lives. There have been some disgraceful scenes of pillage from the ruins and from bodies. The total damage as the result of the tornado is expected to amount to over \$2,500,000.

Policeman Attacked by Negroes.

Richmond, Sept. 29.—Patrolman J. K. Murray of the city police force was attacked by a crowd of negroes Sunday and severely beaten. He was investigating Saturday's riot, in which Barber, a streetcar employe, was shot by a negro, when he came upon a group of excited negroes and ordered them to disperse. The men attacked him and Murray drew his pistol and fired, wounding one of them. They closed on him, got his pistol away and were beating him when citizens rallied and drove them off. Several arrests were made.

Shot a Woman and Himself.

Memphis, Tenn., Sept. 29.—Joseph Emera, a well known young man of Vicksburg, Miss., Sunday shot and seriously wounded Miss Rosa Boroditsky, and turning the weapon upon himself inflicted what is thought to be a fatal wound. Love affair the cause.

The Cable to Manila.

New York, Sept. 29.—Vice President George G. Ward of the Commercial Cable company, who arrived on the steamship Celtic, made the assertion on landing that the United States would be able to open cable communication with Manila, P. I., by July 4, 1903.

Cotton Stalk Ten Feet High.

Marshall, Tex., Sept. 29.—W. B. Anderson, a farmer living five miles west of here, brought to this city a cotton stalk measuring 10 feet 6½ inches in height. This is the tallest stalk ever seen here. It has no matured bolls.

Isthmus Situation Unchanged.

Colon, Sept. 29.—The situation on the isthmus remains unchanged. Free transit between Colon and Panama obtains, and American marines and blue jackets are still traveling on all trains.

Theatrical Manager Dead.

St. Louis, Sept. 29.—Thos. Hawkes, a theatrical manager of Paris, died at the city hospital here from hemorrhage of the lungs.

NEWS IN BRIEF.

James Murray of Galveston, Tex., has been arrested, charged with smuggling and assaulting a customs inspector.

August McNitzky of Denton, Tex., died from an attack of apoplexy.

The Korean emperor is not dead as was reported last week.

NEW YORK DEMOCRATS

Leaders at Saratoga Endeavoring to
Make a Platform.

DIFFER ON FINANCE

Some Want Silver Remain as a Decla-
ration of the Party, While Others
Believe Gold Should Be the
Standard of the Party.

Saratoga, Sept. 29.—The arrival of former Senator Hill, Chairman Frank Campbell of the state committee, William Sulzer, Senator McCarren and other leaders to-day gave rise to discussion over probable and proposed planks to be adopted by the Democratic state convention. It is learned that a tentative platform has been agreed upon, but it is said some of its planks are causing much discussion. William Hepburn Russell, Jacob A. Cantor, James P. Shevlin and some others are of the opinion the platform should be brief and conservative, and while arraigning the Republicans, it should be so carefully constructed as not to pledge the Democratic party to policies it could not carry out without danger to corporations and individuals.

The one plank of the platform that is testing the capacity of the leaders in their desire to avoid friction is the financial plank, and already there is discussion of it. Those who two years ago were insistent upon indorsement of the Kansas City and Chicago plank are equally as firm now. Representative Sulzer, Norman E. Mack and others who represented for years Bryan's interests, are insisting that the plank shall be outspoken, but the other side of the controversy, led by Senator Hill, is urging that as the so-called "liberal Democracy" of the state has already filed a certificate of the nomination of an independent state ticket on the free silver platform, this convention should declare for a gold standard.

The only certainties in the list of nominees are John Cunneen of Erie for attorney general and Judge C. Gray for the court of appeals.

It was believed Sunday night that Edwin Atwater of Poughkeepsie was slated for the comptrollership, but a vigorous fight is being made for the place by friends of Mr. Finch of Glen Falls. Atwater, who is a wealthy banker, has been the nominee of the party two successive times, and as he has contributed largely to campaign expenses his friends believe he should have a chance again.

ALGER IS SENATOR.

Accepts the Offer to Fill the Unexpired
Term of Senator McMillan.

Detroit, Sept. 29.—General Russell A. Alger, former secretary of war, has formally accepted Governor Bliss' tender of the position of United States senator, to fill the unexpired term caused by the death of Senator McMillan.

Met Death Saving a Train.

Missola, Mont., Sept. 29.—William Johnson, a section foreman, met his death by being struck by the engine of the Northern Pacific through passenger train while endeavoring to flag the train to save it from being wrecked. He discovered a broken rail but a few minutes before the passenger train was due. Johnson saved the train, but was hurled high into the air and into a ditch. He died two hours afterward aboard the train, which was hurrying for medical assistance. He leaves a widow and two children.

President's Condition Satisfactory.

Washington, Sept. 29.—The president's physicians authorized the following statement:

"The condition of the wound is satisfactory. His temperature is normal. The patient slept well Sunday night, and at present occupies a rolling chair. Is cheerful, and from the beginning has shown neither impatience nor restlessness, but has carried out the directions of the physicians with scrupulous care."

Robbing of Graves Stopped.

Indianapolis, Sept. 29.—The wholesale robbery of graves in cemeteries about Indianapolis has been brought to a close by the arrest of a gang of seven negroes. Warrants also were issued for a prominent physician, demonstrator of anatomy in a local medical college, where two stolen bodies were found ten days ago. Rufus Cantrell, one of the negroes, made a complete confession and implicated others.

Panama Traffic Uninterrupted.

Washington, Sept. 29.—The navy department is advised of the receipt of a cable dispatch from Vice Consul Ehrman at Panama in which he states that trains are running regularly over the Panama railroad and that no disturbance is apprehended. Occasionally bands of insurgents are seen along the line of the road, but they offer no obstacle to the operation of trains.

Irish Members Preparing a Program.

Dublin, Sept. 29.—John Redmund, chairman of the Irish parliamentary party, has summoned a meeting of the Nationalist members of parliament for Oct. 7 to prepare a program for the coming session.

Freight Wreck at Denton.

Denton, Tex., Sept. 29.—Fourteen freight cars were derailed and some of them torn into splinters in the Katy yards here Saturday night. The accident occurred at a switch just south of the freight depot.

EMILE ZOLA DEAD.

The Novelist Was Asphyxiated at His
Paris Home.

Paris, Sept. 29.—Emile Zola, the novelist, who was born in Paris April 2, 1840, is dead. He was found dead in his house from asphyxiation. His wife is gravely ill.

Zola was asphyxiated by fumes from a stove, the pipes of which are said to have been out of order. At the same time it is stated there are indications of suicide. Zola and his wife returned to Paris Sunday after spending three months in the country. When Zola returned from his coun-

EMILE ZOLA.

try house at Medan, owing to a sudden spell of cold weather, he ordered a heating stove in his room to be lighted. The stove burned badly, but Zola and his wife retired at 10 o'clock Sunday night, and the servants not hearing any movement in the apartment entered the bedroom at 9:30 o'clock and found Mme. Zola lying on the bed inanimate. Zola was lying half out of bed, with his head and shoulders on the floor and his legs on the bed. Doctors were summoned, but they failed to restore Zola to life. After prolonged efforts they resuscitated Mme. Zola.

STOPPED BY A MOB.

Train With Miners Stoned While on the
Way to a Colliery.

Pottsville, Pa., Sept. 29.—A miners' train on the Pennsylvania railroad, bound for Richards' colliery, near Mount Carmel, was stopped by a mob, who refused to allow the train to proceed. The train was so thoroughly stoned that only two window panes were left unbroken. Most of the men on board got under the seats and escaped injury. Passengers on the train consisted of carpenters, repairmen and pumpmen for Richards colliery.

Three men on the way to work at the Pennsylvania colliery at Green Ridge were pulled off a trolley car by a mob and severely beaten.

Shows Little Change.

Wilkesbarre, Pa., Sept. 29.—The opening of the twenty-first week of the coal strike shows very little change in the situation. Operators say they have more men at work than they had on any day last week. At strike headquarters reports received show there has been no break in the ranks of the strikers.

Several battalions of troops scoured the Wyoming region but found no crowds assembled at any mines.

Sheriff Jacobs says troops may be called upon when there is an outbreak to suppress it, but that they will not do police duty and no soldiers will be placed behind barricades at the mines.

Will Seek Sunken Coal.

New York, Sept. 29.—Owing to the high prices for coal an organized plan for securing supplies of the "dusky diamond" from the waters of Long Island Sound will be put in operation this week, says a Bridgeport, Conn., dispatch.

Many barges loaded with anthracite have been wrecked in the sound. A company has been organized to recover the coal by means of "sweep" boats, which will be used to locate the wrecks. A diver will be sent down to each wreck, and if the outlook is satisfactory powerful pumps will be put to work, the coal will be sucked up and run over screens into the dredges.

North Pole Good for Consumptives.

New York, Sept. 29.—Commander Robert F. Peary, the Arctic explorer, who has arrived here from the north on his way to Washington, where he will report to the navy department for duty, says it is his belief that the Arctic region is one of the best places on earth for persons afflicted with pulmonary diseases. In proof of the health-giving conditions there he says that nearly every man who came up there came back weighing more and in a much better state of health generally.

Serious Fire at Stockton.

Stockton, Cal., Sept. 29.—The agricultural pavilion, together with all its contents and two residence blocks, with the exception of a few buildings were destroyed by fire here Sunday night. It was only by determined work on the part of the firemen, assisted by the thick shade trees, that the flames were prevented from spreading still further. Total loss will reach \$500,000.

Married Her Master of Horse.

London, Sept. 29.—Separate dispatches from Madrid says it is reported there that Queen Marie Christina, mother of King Alfonso, married her master of horse count, Dela Escosura, while in Austria recently.

New Lord Mayor of London.

London, Sept. 29.—Sir Marcus Samuel has been elected Lord Mayor of London for the ensuing year, succeeding Sir Joseph C. Dimsdale.
